Sr. judge it is a honor and a privilege ,

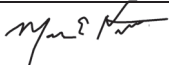

being sound minded. I am at disbelief such careless ,recklessness behaviors committed by our judicial system exhausting every attempt to rectify the situation, with out further causing any more mental pain to my children and watching the the same system that showed your court the ergentt.... need to replemained back to state, is the same organazatio that is causing my childeandn pain suffering mental confusion , sir my kids are being hurt and tramitized after almost 3 years , sense 2019 till present and remaind steadfast in believing in our constitutional,amendments, and judicial system.

your ruling as senior judge determined December,2021 was irreconcilable difference in this case and there fir had rulled, replemained back to state with following dec, 2 as dismissal date. that was furmely expressed no concern and dis approved of your rulling maid a nother extension possible . over looking your judgment. Also causing or due peoseas to be overlooked wnd most important three inocent children to be hurt. sir i am not asking for any favor just the law to be honored.
